Who we are

We have been continuing our roll and personalized wallpaper production adventure which started in Belgium in 1981, in Turkey since 2008.

While continuing our way with the knowledge and experiences from our family, we continue to improve ourselves every day in order to offer you more beautiful and high-quality products.

We are one of the leading companies in Turkey that is a manufacturer of poster wallpaper according to the person.

Our papers are produced in the leading companies of Belgium and Germany with sensitivity to human health and the environment.

Our company, which has a wide range of options with many popular and special designs for our company, personalized designs, products, materials, is willing for you to add innovation to your homes.

Without a doubt, we are all the details of our designs and personalization options that you can choose from such a way that you can create a new style with the latest trends.

Our company's great quality allows you to decorate your walls with the maximum variety of options.

With knowledge and care for excellent color consistency, we produce exceptional quality prints with natural ventilation and which is sensitive to a wide variety of applications.

Our range of products and services are more than enough to make your wallpaper project successful. It allows the digital image to be transformed into paper in the most perfect way.

As a result, the printed wallpaper can be used in any room and they are ready to use without the need for any additional processing.

Each production process is carefully monitored by our quality control team. Subject to checks, which is confirmed that it is 100% compatible with the standards of the customer. This allows you to get your wallpaper with the best quality and service.

The packaging, which is in perfect condition, is made to be suitable for shipping.

With the awareness of our responsibilities towards the environment and nature, all our high-quality materials that we use while producing wallpaper are 100% natural and eco-friendly that allow the recycling of the waste and the use of water, energy and other resources.

We Design For You

Our Materials Features

Eco-friendly

Our use of 100% recycled polypropylene exceeds the environmental standards set out that result in a material that is naturally resistant to staining, so the environment surrounding your boat is making a difference to the nature of your boat.

Light Fastness

Lightfastness is crucial for the longevity of your boat's appearance and helps to reduce maintenance. Polypropylene is a highly resistant polymer that is naturally resistant to UV light and does not fade, yellow or become brittle. It is also resistant to salt water and corrosion, which means you can enjoy your boat for years to come.

Washable

Polypropylene is a highly resistant polymer that is naturally resistant to UV light and does not fade, yellow or become brittle. It is also resistant to salt water and corrosion, which means you can enjoy your boat for years to come. The material is also resistant to staining and is easy to clean.

Resistant

The polypropylene used in the hulls of our boats is highly resistant to a wide range of environmental factors. It is resistant to UV light, salt water, corrosion, and staining. The material is also resistant to impact and is easy to clean.

Peelable

The polypropylene used in the hulls of our boats is highly resistant to a wide range of environmental factors. It is resistant to UV light, salt water, corrosion, and staining. The material is also resistant to impact and is easy to clean.

Double Seam Cap

The polypropylene used in the hulls of our boats is highly resistant to a wide range of environmental factors. It is resistant to UV light, salt water, corrosion, and staining. The material is also resistant to impact and is easy to clean.

Good To End On

The polypropylene used in the hulls of our boats is highly resistant to a wide range of environmental factors. It is resistant to UV light, salt water, corrosion, and staining. The material is also resistant to impact and is easy to clean.
